

## CROSS ROADS TO “BEING”

### **LOOK UP! UNLATCH YOUR MIND**

10/ 4/ 04

Look up! Unlatch your mind  
I am translating the message...  
I am bearded, natty, and locks up in “spirit”  
Focusing on “you” in the “me”...  
You are violating your “being” while paying for it.  
Look up! Unlatch your mind.  
You are an “entity”...  
The tentacles of “evil” are enslaving  
and programming your consciousness...  
Tattoo (Hindi-Tattu) design on the skin;  
Brand, symbol, emblem, mark are all part of the script,  
and you are paying for it...  
Indelibility—without indemnity and the pain becomes unbearable...  
Self-branding--- mind, body, soul,  
Visible to some...who have eyes!  
Look up! Unlatch your mind...  
Evolve self...  
Because the syndrome continues without research,  
And understanding the tentacles of “evil are enslaving and  
programming,  
Parents, children, babies, grandchildren, young adults, and adults...  
Tattooing your body and consciousness...  
Symbolic Identification...  
Look at the images--- ignorance while following others...  
Yes! It is art----traditionally  
Legitimate culture of a people ---- peoples  
Study----Study understand the channels ---  
Be a student---First, evolve ----Yes, evolve  
Then perpetuate Tattooing ---Tatau---  
Yes! You are rebelling—areas of conflict with self while been  
Violated...  
We are all conditioned but must be aware of the tools of  
conditioning...  
By other entities, who are programming  
consciousness symbolically...  
Look up! Unlatch your mind...  
Receiving of the tattoo-mark, a symbol  
Is it inevitable?

## CROSS ROADS TO “BEING”

They tag other life forms...!  
Make an informed decision ...  
Can you remove your body?  
Discard hand / head, indelible, laser,  
Universal product-code, tentacles of “evil” are on the move...  
Are you secure within self,  
Prince and Princes role-playing...  
Be aware; be aware...  
Create a new way for the common good for all masses of this planet...  
Right to life, to freedom, to clean relationships, to movement, to  
General expression, freedom to speak out,  
Look up! Unlatch your mind  
And they say my tongue, my tongue but I can taste...  
Universal product code-implanted in the mind.  
Test tube reproduction, selective cloning, protein and genetic

engineering and one becomes ill disciplined in a discipline.  
The countdown translated into dollars subdivisions, have and the  
have-nots.  
And they say my tongue, my tongue, but I can taste...”  
And will not stand by watching you intimidating the masses  
into part of the script – tattooing, conditioning and branding  
youths electronically into Human Robots ... who will demonstrate  
the essence of true living?  
Look up! Unlatch your mind...  
I have translated the messages.
